REPORT OF THE PRESIDENT

RUDOLPH H. WYNER, *President*

This is the final report of my three year tenure as President of the Beth Israel Hospital. These years were replete with great accomplishments of our community and professional leaders. In a time of rapid change they acted with skill and statesmanship to keep Beth Israel among the nation's foremost teaching hospitals.

To look over the past three years is to see a panorama of trends and actions, all of them having impact upon the program and the future generations of this Hospital. A few deserve comment as the most important in their effect upon Beth Israel.

Perhaps the most important undertaking by the Trustees during this period was the \$7,500,000 campaign for expansion and modernization of our physical plant. A Development Committee headed by Mr. Irving W. Rabb raised the bulk of this money in less than a year. Mr. Abram Berkowitz, a former President of the Hospital, was unusually productive in assuring the success of the drive. Trustee support of this effort was extraordinary and generous without precedent. Our Hospital is now assured of our required new facilities, and construction has begun.

At the Annual Dinner of 1961 we announced our first endowed professorial Chair at Harvard Medical School. Named in honor of our present distinguished Chief of Medicine, The Herrman L. Blumgart Professorship of Medicine honors a great physician and brings assurance of continued outstanding men as future heads of our Medical Services.

In order to fully meet the standards set as a goal by the Harvard Medical School for its affiliated teaching hospitals, of which Beth Israel is one, the Trustees adopted the policy of having all services in the Hospital headed by full-time Chiefs of Service. During the past three years this policy has been steadily implemented, the latest appointment being of

Dr. Hilton A. Salhanick as Chief of Obstetrics and Gynecology. The intensification of teaching and research activities which has already resulted from this policy will continue to improve our standards of patient care in the future.

During my term of office I appointed a number of professional Administrative Executives to key posts within the Hospital. My objective was to implement the Board policy of fusing Trustee, professional and administrative leadership into a team which could constantly improve the Hospital's services.

Important among these appointments was that of Dr. Sidney S. Lee as General Director. Dr. Lee has concentrated upon organizing and furthering the Development Program and in solving key administrative problems within the Hospital. His positive actions and his close work with the Board of Trustees enabled us to enter into a new era of progress and efficiency.

Other major appointments included Dr. Martin D. Keller as Director of Clinical Services, Dr. Robert B. Berg as Chief Pediatrician, Miss Dora E. Zolotin as Director of Nursing, Mr. S. David Kaufman as Director of Fiscal Services, and Mr. Louis Stein as Director of Public Relations.

Our research program has grown considerably during the past three years. In 1959 we were spending some \$700,000 of grant money per year in research, and today we are spending in excess of \$1,000,000 per year. To this annual rate of research activity has been added a grant of \$2,260,000 from the National Institute of Health for a Clinical Research Center for a seven year study of aging and arteriosclerosis.

The following pages of this Annual Report set forth in more detail the development of the Hospital, but no person or book can set out the depth of this Hospital's story, for that is the story of thousands of people, stretching from 1911 to the present day, each one contributing in some unique way to the overall success of our great humanitarian effort. It is the story of a vigorous, capable and outstanding Women's Auxiliary, of an intelligent, dedicated and generous Board of Trustees, of an understanding and progressive community, of hundreds of sacrificing, unselfish volunteers, and of an outstanding corps of physicians and scientists, — all working together in a great community health endeavor.

Rudolph H. Wyner

REPORT OF THE GENERAL DIRECTOR

SIDNEY S. LEE, M.D., Dr. P.H.

1961 has been an exciting year at Beth Israel for we are in the midst of great changes in our services and in the expansion of our physical plant. Keeping a Hospital going while all these changes are taking place is a very complex job. It takes many types of minds and many kinds of skills. Beth Israel is indeed

fortunate in the quality of its professional and community leadership, epitomized by the vigorous direction of Rudolph Wyner in his three years as President of the Hospital. He was helped enormously by a strong group of fellow officers and a devoted Board of Trustees.

As I look back upon 1961, I am delighted with the pace and extent of our forward movement in all areas. Here are some of the highlights in the services:

After Dr. Harold H. Rosenfield's resignation, Dr. Harold W. Rubin served the Hospital in outstanding fashion as Acting Obstetrician-in-Chief. During this interim period, we had an opportunity to reassess the role of this service. A decision was made to combine Obstetrics and Gynecology into a single service and to make it a teaching service headed by a full-time Obstetrician and Gynecologist-in-Chief who would be a Harvard professor. After a careful search, we selected Dr. Hilton A. Salhanick, formerly of the University of Nebraska Medical School, for this post. With this action, each of the seven major clinical services of the Beth Israel Hospital has achieved formal affiliation with the Harvard Medical School.

Our Pediatric Service also has undergone change. Dr. Samuel Katz, after three eventful years as Pediatrician-in-Chief, decided to return full time to the laboratory with Dr. John Enders at Children's Hospital. We were very fortunate in persuading Dr. Robert Berg to return to Beth Israel as our new Pediatrician-in-Chief.

Ad hoc committees composed of representatives of the Hospital and Harvard Medical School are also working diligently in seeking out appropriate physicians to fill the important posts of Radiologist-in-Chief and Physician-in-Chief, the latter to be appointed following Dr. Herrman L. Blumgart's retirement next year.

Another exciting facet of change is in the field of research. Beth Israel has received a seven year grant of \$2,250,000 from the National Institutes of Health to establish a Clinical Research Center in the fields of aging and arteriosclerosis.

At Beth Israel, signs of building change and growth daily become more evident. Construction has been proceeding on the first major phase of our Development Program — the addition of a fourth floor to the Yamins Research Building, and the installation of new electrical facilities for the entire Hospital.

Meanwhile, all these changes have been and will continue to be expensive. Intensive effort has gone into the work of the Development Fund Committee. These efforts are bearing fruit, and the future of the hospital, in a physical sense, is assured.

The Administrative Staff, the Chiefs of Service, our Medical Staff, the Heads of the Department throughout the Hospital, and the Women's Auxiliary, which helps to unite the Hospital with the community, have all been working very, very hard indeed.

I want to express my personal thanks to all who have participated in these efforts for the massive support which we have had during this past year. If we can all continue to work together as effectively, I have no doubt of Beth Israel Hospital's bright future.

Sidney S. Lee M.D.

REPORT OF THE PRESIDENT OF THE WOMEN'S AUXILIARY

MRS. THELMA SIDEL

*(Remarks made at the Annual Dinner of
Beth Israel Hospital, November 26, 1961)*

This night is one I shall long remember for it is a most happy event and will stand as an historic milestone in the development of the Beth Israel Hospital. It is tangible evidence that people do care to help their fellow man.

Because of this humane expression and with a feeling of great humility I would like to dwell for a moment on the achievements of our women of the Beth Israel Hospital Auxiliary.

Shall I recall the beginning conceived by those inspired women of vision who were its founders? Shall I mention the major projects of recent years such as the construction of the Maternity Unit, the electric generator which is our guarantee of power in any emergency, the renovation of old building areas or the seventeen-bed pediatric unit? Perhaps I might outline the work of the loyal volunteers behind the scenes whose labor of love includes the rolling of bandages, selling in the Gift Shop or the Thrift Shop, aiding on the floors or in the clinics or merely adding a woman's touch to smooth the way.

It would certainly be necessary to tell of our initiation of the Home Care programs or the use of

Auxiliary funds to pay for free care in the Out-patient Department.

Or, shall I mention the scholarships and recreation offered the nurses who study here or the record of those who work on our annual membership enrollment, our life membership, our annual luncheons which by the way starting tomorrow will be attended by nearly twenty-five hundred women. Or shall I talk about those devoted women who are now participating in our newest project "Friends of the Out-patient Department and Emergency Unit." I could tell of the good work of the women in our Branches who have been so devoted to our cause. Or, shall I praise my predecessors who have all contributed to the constant advancement of the high principles we have inherited. There are many other valuable services that have been sponsored by our Auxiliary in the past and still continue as part of our present projects but time does not permit this enumeration.

Instead, I would like to say a few words about the driving force behind all these endeavors. I am referring to Idealism — which may have lain dormant in the world but which has never been lost here at the Beth Israel. In the world of today with its tensions and turmoil, it may not be fashionable to talk of idealism but it has served us as a fundamental driving force or we would not be here this evening for the single laudable purpose of helping our fellow man. The worthy aims of our hospital bind us as one for further dedication to caring for all who suffer.

Mr. President, the women of our Auxiliary believe that words should be backed by action. Having made our pledge of \$500,000 toward the Development Fund Campaign, we are now making a second payment toward fulfilling this pledge.

In this, one of our finest hours, it is with much pride in my fellow workers and with great personal pleasure that I have the privilege to present to you, Mr. President, this check from the Beth Israel Hospital Women's Auxiliary for \$125,000.

Thelma S. Sidel

1961 BETH ISRAEL ANSWERS THE CHALLENGE

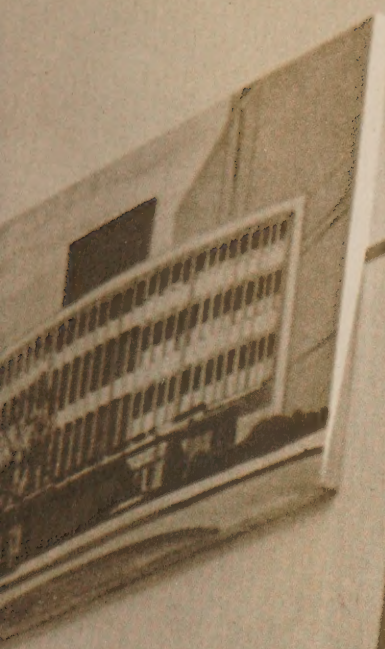

In the half-century of Beth Israel Hospital's history certain years loom as milestones in the development of its service to the community. Such a year was 1911 when the Beth Israel Hospital Association was formed. Others of equal significance were 1916 when the first Beth Israel building was acquired, 1928 when the North Building was dedicated and teaching affiliations established with Harvard and Tufts Medical Schools, and 1950 when the South Building was erected.

And now, 1961 takes its place as an equally significant year. For it was in 1961 that Beth Israel moved to meet its future needs in two important ways:

1. Raised most of a \$7,500,000 goal to finance a far-reaching Development Program. Two new buildings will be erected and extensive renovations will be made in the existing plant. Construction has already begun.
2. Made progress in moving toward the goal of having every major service headed by a full-time Chief, who is also Professor at Harvard, and recorded major advances in its research program.

The Development Program, which emerged as the result of a five year study, recognized that medical practice and techniques in hospital care were progressing with such rapidity that Beth Israel needed to assess its own position in relation to these changes and move swiftly to keep itself in the front rank of teaching hospitals.

BETH ISRAEL HOSPITAL

EXPANSION PROGRAM FOR \$7,500,000

NEW RABB BUILDING - TO HOUSE CENTRAL ADMITTING,
DIAGNOSTIC SERVICES & EDUCATION FACILITIES.

ADDITION OF 4th FLOOR TO YAMINS RESEARCH BUILDING.
NEW SCIENCE & X-RAY BUILDING.

COMPLETE RENOVATION OF OUTPATIENT DEPARTMENT.

COMPLETE RENOVATION OF EMERGENCY WARD.

MODELING OF FIVE INPATIENT FLOORS.

EXTRAORDINARY FUND RAISING DRIVE

Under the chairmanship of Irving W. Rabb a committee was organized to raise the needed sum of \$7,500,000. The resulting campaign was so uniquely successful as to attract a great deal of attention throughout the country. For, in little less than a year, the Committee raised almost \$7,000,000. The drive was sparked by a million dollar gift from members of the Rabb Family, \$500,000 from Mortimer C. and Florence L. Gryzmish, a similar pledge from the Women's Auxiliary, and almost \$4,500,000 from members of the Board of Trustees. A still uncompleted campaign among the medical staff has thus far yielded over \$215,000.

The Development Program, when completed, will give Beth Israel Hospital the following benefits:

1. **THE NEW RABB BUILDING**, a three-and-a-half story and basement building, will rise between the North Building and the Outpatient Building, with an area of 55,000 sq. ft. of additional space. It will become the principal patient entrance with centralized admitting and medical record facilities, consolidated and expanded Clinical Laboratory space, additional teaching and conference rooms, and enlarged Medical Library.
2. **THE NEW THERAPY AND SCIENCE BUILDING** will permit expansion of diagnostic radiology services and the addition of a new radiotherapy unit.
3. **THE ADDITION** of a fourth floor to the Yamins Research Building, to be dedicated as the Ziskind Floor, will increase by 4,850 sq. ft. the available space for research activities and relieve overcrowding.
4. **THE OUTPATIENT BUILDING** will be completely renovated in order to provide the most modern facilities for clinic patients. One of the important features of this modernization will be a new Mother and Child Clinic. Ex-

panded facilities will also be built for Psychiatry, Dentistry, Physical Medicine and Rehabilitation, and Social Service.

5. THE EMERGENCY WARD will be completely rebuilt and expanded to handle the continued growth of this service.
6. THE MORTIMER C. AND FLORENCE L. GRYZMISH BUILDING, formerly the North Building, will undergo extensive renovation, including the remodeling of five inpatient floors with a capacity of 180 beds.

SERVICE STATISTICS SHOW GROWTH

The President and General Director have noted in their reports the steady progress of the Hospital toward the goal of appointing full-time Chiefs for all Services. This is one of the cornerstones of the Hospital's program. Beyond the steady implementation of this policy many important trends in services were evident at Beth Israel during 1961.

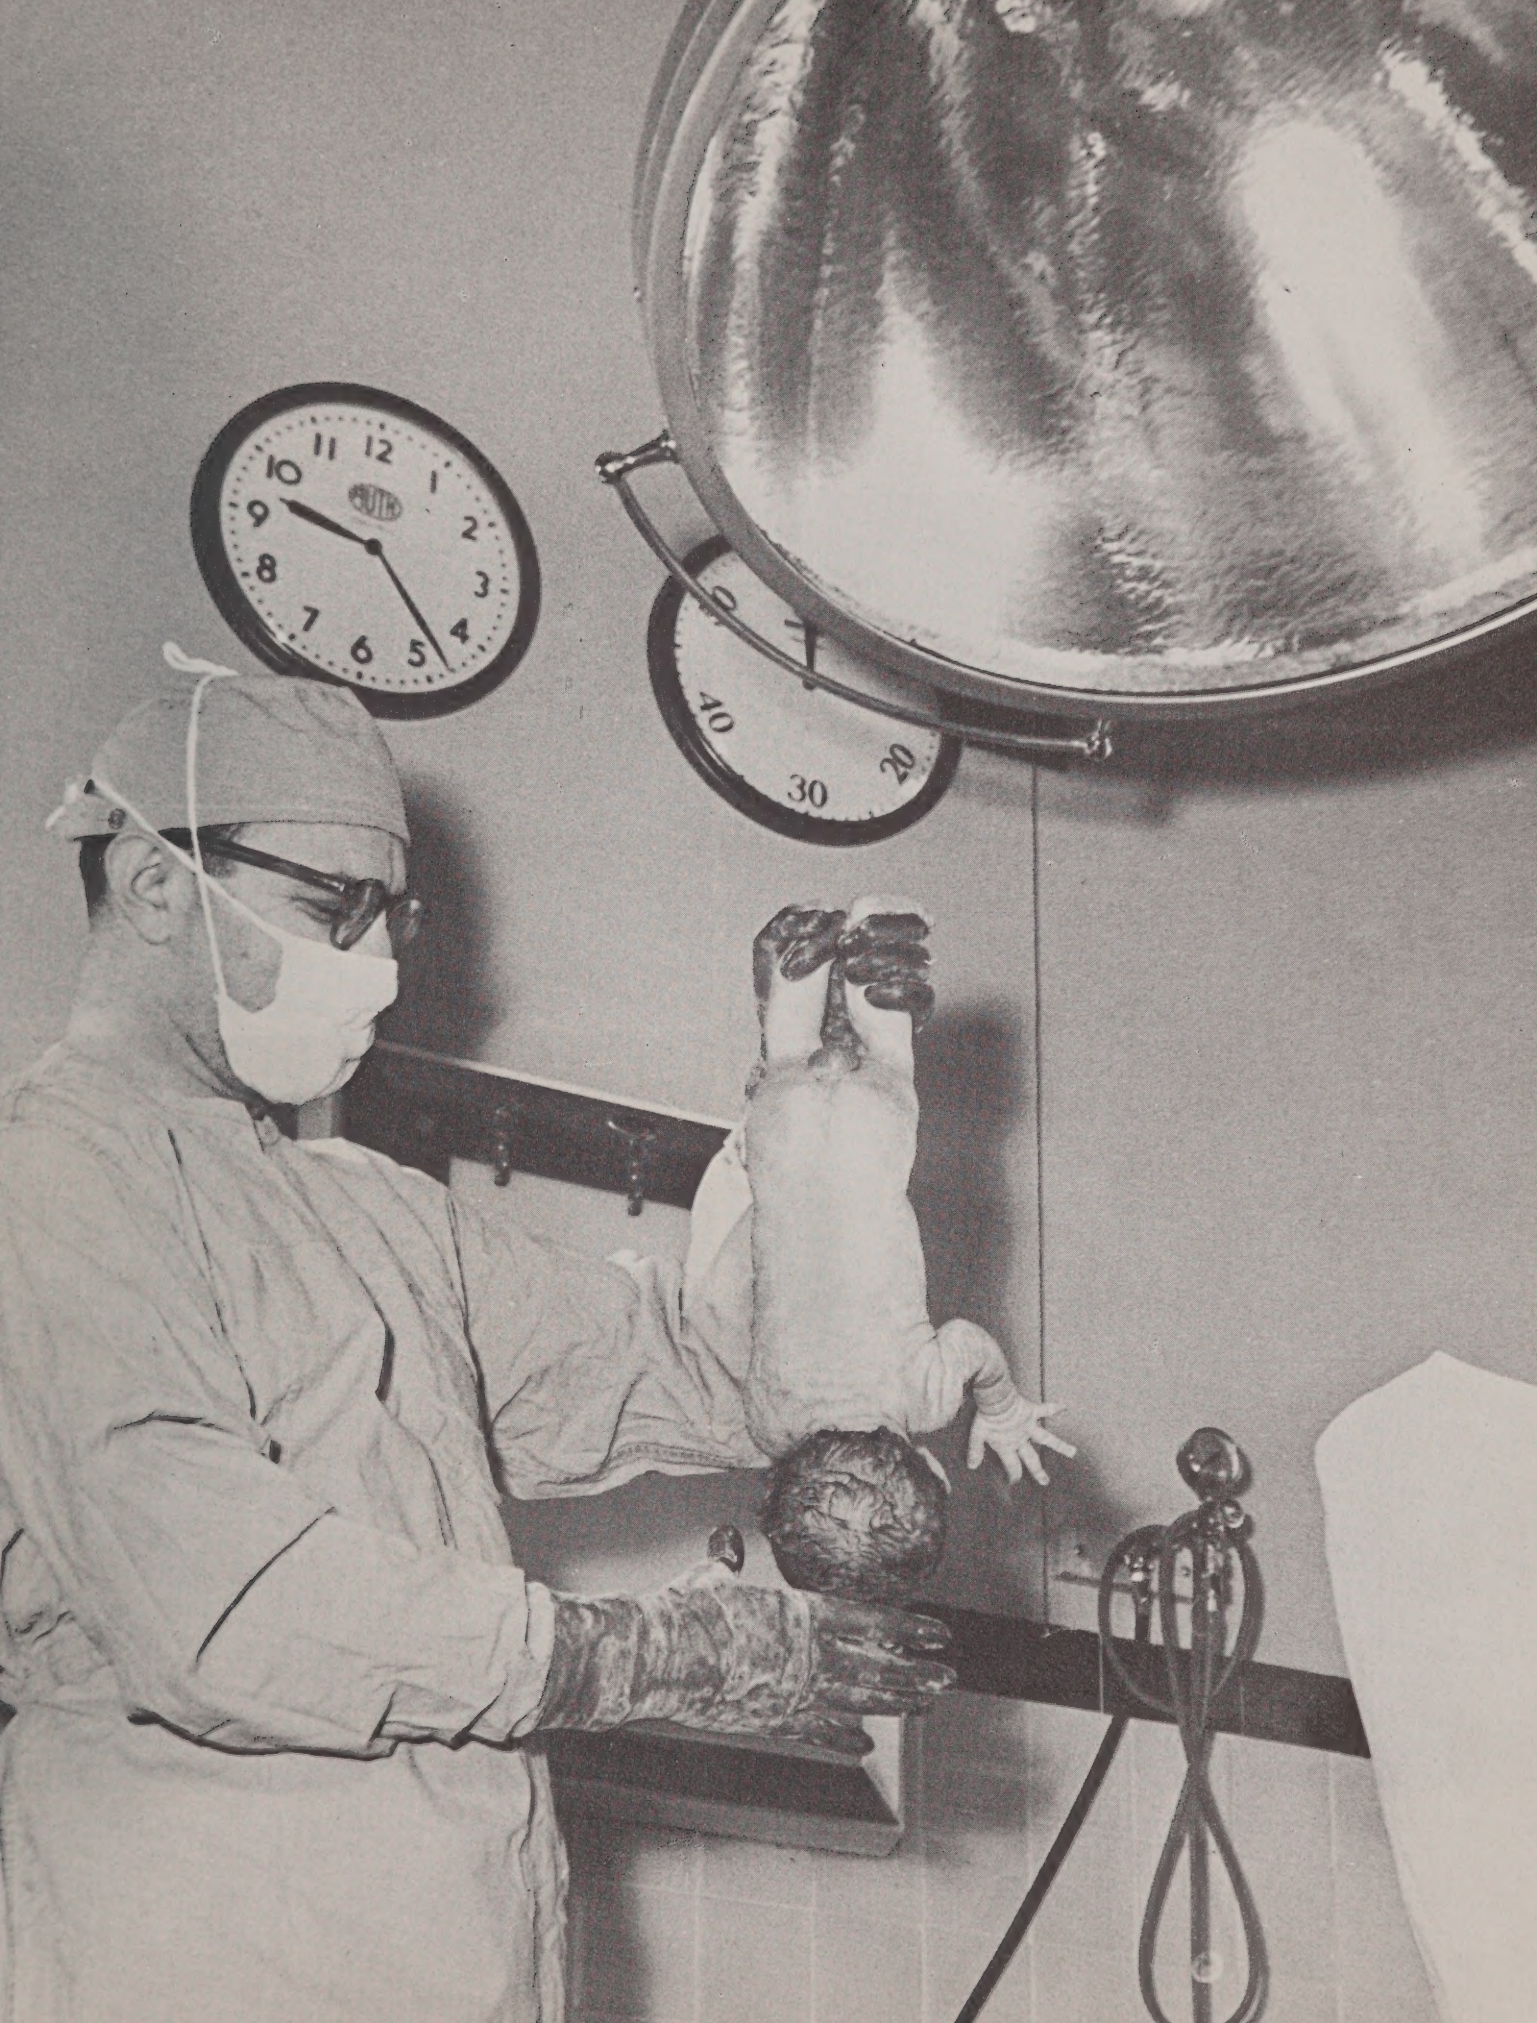

The number of patients helped by the Hospital rose in 1961 to a figure of 37,550. The number of patient days was 122,323. Utilization of the Emergency Ward continued to increase. Over the past five years the load carried by this unit increased three-fold and the growth from 1960 to the total of 16,566 patients in 1961 was 21.4 per cent.

In the Outpatient Department, almost 9,000 people made over 57,000 visits to 30 clinics. One of the highlights in this area was the establishment of a new Fracture Clinic which, in the short span of its existence, has already handled 553 patients. Psychiatry, reflecting the further growth of this service within the Hospital, registered a 5.7 increase in the number of clinic patients seen. The Social Service Department during the year also expanded its Private Patient Counseling activities, utilizing the full time of a trained social worker.

Other significant service statistics included:

- 5,383 Operations Performed.
- 2,583 Babies Born.
- 56,989 Blood Transfusions Administered.
- 257,058 Laboratory Tests Performed.
- 28,035 X-Ray Examinations.
- 12,404 Days of Home Care.
- 57,000 Hours of Volunteer Service.
- 1,212 Tons of Linen Laundered.

CLINICAL RESEARCH CENTER ESTABLISHED

Research activities, which have been expanding steadily, received great impetus at Beth Israel Hospital in 1961 through the establishment of a Clinical Research Center for the study of the nature of aging and arteriosclerosis in man. Dr. Stanford Wessler, Visiting Physician and Associate in Medical Research at Beth Israel, and Assistant Professor of Medicine at Harvard, is the Director of the project.

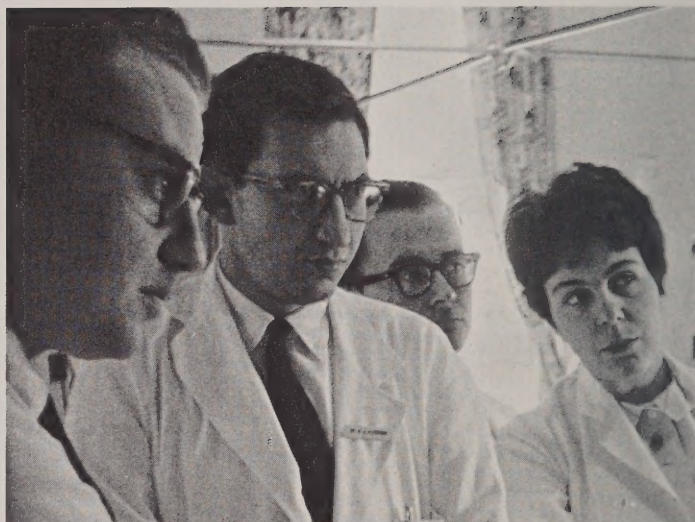

The award of the new grant by the U.S. Public Health Service broke new ground in two ways:

1. The amount of \$2,250,000 was the largest single grant ever made available for the Hospital's research effort.

2. The seven year term of the study represented the longest span of time ever made available to Beth Israel researchers for a single program.

The Center will have a two-room, six-bed unit in the North Building, as well as supporting laboratories. In later years these facilities will be expanded. The chief importance of the Center lies in the fact that as the proportion of aged persons among the population rises, the number of problems connected with the aging process will increase. The long term research program made possible by establishment of the Center provides a unique opportunity for the integration of the work of several branches of medicine in seeking answers to many ongoing problems in clinical research. Departments involved in the initial phases of the program are Medicine, Psychiatry, and Pathology.

The regular program of research carried on by the Hospital also continued in 1961. More than a million dollars in government and other grants were allocated for medical and surgical research in cardiology, cancer, pathology, hematology, and other areas of investigation.
